I like the idea of ReelTalk

ReelTalk is actually a really solid name 🎬💬 — it has a few things going for it:

Why it works

- "**Reel**" = film/movie reference
- "**Talk**" = discussion, reviews, opinions
- It suggests a **community where people talk about movies**, not just rate them.
- It's **short, memorable, and easy to brand**.

Possible Taglines

You could pair it with a tagline like:

- **"Where Movies Start Conversations."**
- **"Real Opinions on Every Reel."**
- **"Watch. Rate. Talk."**
- **"Your Voice in Film."**
- **"Talk Movies Like Never Before."**

Feature Ideas That Fit the Name

Since the name is **ReelTalk**, you could include things like:

⭐ **Rate movies (1–5 stars or 1–10)**
💬 **Comment/discuss each movie**
🔥 **Trending discussions**
🎥 **Browse movies by genre**
👥 **User profiles with favorite films**
📊 **Community score vs personal score**

Logo Idea

A simple logo could be:

- A **film reel icon + chat bubble**
- Or the **two O's in "Talk" replaced with reels**

Watch. Rate. Talk.

✅ Overall: **ReelTalk sounds like a legit movie platform name.**

If you want, I can also help you with:

- a homepage layout for the website
- a logo concept
- features that would make it feel like a real app (like Letterboxd or IMDb).
